**** Juggernaut does not supply an MDM, end user must verify compatibility. ****

1 Power & Data: Back Cap

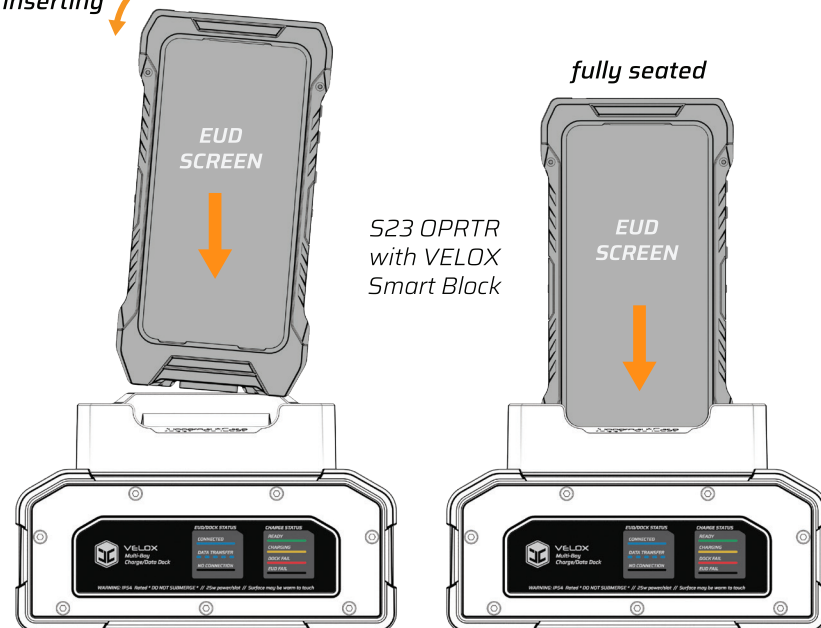

The back panel has one power receptacle and two RJ45 jacks. Use the provided power cable to power the dock.

2 Inserting & Removal of EUDs:

Use firm but not aggressive downward pressure until the EUD is seated into the slot.

slight angle while inserting

To remove, press down slightly, rock to the left or right until one side releases and then up and out.

3 DAISYCHAIN Setup:

Use a CAT6 Cable to connect Dock A HOST PORT to a Data Host.

Use another CAT6 cable to connect the DAISYCHAIN port on Dock A to the HOST PORT on Dock B. Continue sequence up to 5 total Docks
